To Whom It May Concern:

Letter of recommendation for Motto Systems Pvt Ltd., whose business headquarters at Hyderabad, TG, India.

I feel privileged to write a reference letter for Motto Systems in regard to both its approach and the quality of their consultants.

Our team worked with Motto Systems throughout the entire GMPPro implementation process. For Ciron Drugs, it was important to not only document our processes, but also to improve our practices. Prior to implementing GMPPro, Motto Systems team traveled to our site several times and conducted gap analysis with our team to ensure we captured all of our key requirements. In addition, they facilitated training programs that enabled us to define and optimize our business processes to align with standards and our company goals which leads us towards future growth. This enabled us to mitigate our compliance risk and reduced our overall costs by implementing GMPPro.

Implementing a software package can be a difficult process with many associated risks. The Motto Systems team helped us to address the risks and positioned us for a successful implementation. It is not only important to take the appropriate steps when selecting a software vendor, but to have an unbiased partner you trust help guide you through the process. I highly recommend Motto Systems as a trusted partner for all our future software requirements.

Sincerely

28/02/2015
